

SUPPORT FOR PROFESSIONALS

We can provide:

- ASDinfoWales resources
- Advice in relation to specific autism issues
- Support for MH and LD services in their work with Autistic individuals
- Links to training opportunities
- Advice and support to all professionals working with individuals with autism

North Wales Integrated Autism Service provides support in partnership with a range of organisations within your community.

Therefore, informed consent from the individual or parent/guardian is needed before a referral is made.

If you require further information please speak to the team.

INFORMATION FOR PROFESSIONALS

NW INTEGRATED AUTISM SERVICE

The Service

North Wales Integrated Autism Service is jointly hosted between health and social care with strong links to education.

NW IAS offers continuity of support for anyone with autism through the various transitions in their lives, and helps people achieve the things that are important to them.

Our service is for individuals who do not have moderate to severe mental health or learning disability.

Accessing the Service

- We accept referrals from professionals, self referrals or family and carers
- There is a single access point for all referrals via IAS Service
- We offer support to make appropriate referrals and provide the information required for referrals to be made

- We provide for individuals who do not have moderate to severe mental health or learning disabilities

We provide:

- Diagnostic assessments of adults
- Support for adults with a diagnosis of autism and those who care for them
- Some support for children and young people with a diagnosis of autism and those who care for them
- Support and advice for professionals working with Autistic individuals

We do not provide:

- Diagnostic assessment for under 18s
- Urgent/emergency care
- Crisis intervention
- Medication
- Care Plans
